Introducing Kerio Connect 9.2

Kerio Connect Client for Windows and Mac

Users can now install Kerio Connect Client to their desktops. Apart from having all the features of the browser-based client, users can also enjoy the benefits of a native OS application, such as emoji, dictation and text to speech.

Read more in our Knowledge Base: [Kerio Connect Client for Windows and Mac](#)

MyKerio integration

Administrators can manage all Kerio Connect deployments through the MyKerio service. Admins can remotely access the administration of multiple Kerio products (Kerio Connect, Kerio Control, and Kerio Operator) easily in one place.

You can also use MyKerio app for iOS and Android to monitor your appliances.

Kerio Anti-spam and Bayesian filtering working together

Kerio Connect 9.2.0 introduces the possibility to use Kerio Anti-spam and Bayesian filtering at the same time to detect more spams.

Read more in our Knowledge Base: [Kerio Anti-spam filter](#)

Spark for iOS now supports Kerio Connect

You can easily set up your Spark email app on iOS devices using the integrated Kerio Connect profile.

Read more in our Knowledge Base: [Integrating your account with Spark by Readdle](#)

Improved synchronization to iOS devices

You don't have to wait for periodic synchronization of your account anymore. Kerio Connect now synchronizes your emails and contacts in real time.

Changes in System Requirements

Added support

- macOS Sierra
- iOS 10
- Android 7
- Safari 10

Discontinued support

- Microsoft Internet Explorer 10

For more details, read [Kerio Connect technical specifications](#).
